

MANAGERS COMMENT:

Hi all for Junes edition of Bits n Bytes. Our hearts and thoughts once again go out to everyone in Christchurch. I'm sure we all have family, friends or workmates who live in the city who have really had enough of this whole thing. Recently Caroline and I had the opportunity to attend the Infusion conference in Queenstown. The one day event gave us an insight into what the Infusion team have planned for the next months and years. Infusion is a great product for any small to medium business and we have detailed some of it features below. Please call either Caroline or myself for a chat if you wish to know more about this software. Till next month
Ewen

IN THIS MONTHS ISSUE

- Managers comment
- NAS - Network Attached Storage
- Infusion software
- Laptop of the month
- Cartoon of the month

TIP OF MONTH - NAS (Network Attached Storage):

Do you have a network ? No matter what size, many businesses are now moving to NAS boxes for data storage and onsite backups. These are ideal for any sized networks from 2 PCs to 20. They simply connect to your network and allow for your valuable data to be copied easily and automatically. These start from as low as **\$350 +gst**

INFUSION:

What can infusion offer me? It's just not another accounting program. Infusion gives you modern tools at your fingers tips to manage much more. For the service industry, logging managing and invoicing work is a must.

Customer Relationship Management (CRM) now allows you to manage clients information, get to know them better & what they want, so you can best support them. Plus of course the usual GL financial, cashbook POS..... And it's all integrated into one package that is affordable without the huge ongoing costs that some packages attract. If you are keen to know more then call us today. It will cost you nothing to enquire.

LAPTOP OF THE MONTH:

Time to upgrade. That old PC or notebook running terrible. Check out the cost of a replacement.

TOSHIBA 15" LAPTOP - 2.20GHz Processor, 4GB Ram Memory, 500GB Harddrive, 1 year Antivirus subscription + FREE CARRY CASE. - **\$895 + gst - lease one from \$35 +gst p/month**

If you want to preserve that precious cash then **consider leasing**. It's worth a look!
